# Product Description

---

SafeNet MobilePASS for Mac OS X is a one-time password (OTP) software authentication solution that combines the security of proven two-factor strong authentication with the convenience and simplicity of OTPs generated on a Mac computer.

# Release Description

---

SafeNet MobilePASS 8.4.1 for Mac OS X introduces support for MobilePASS on Mac OS X computers.

# New Features and Enhancements

---

**SafeNet MobilePASS 8.4.1 for MAC OS X includes the following features:**

- Support for Gemalto's SafeNet Authentication Service (Cloud and PCE) management platform
- Support for MAC OS X versions 10.9, 10.10, and 10.11
- Available from the Mac App Store for easy deployment
- Enhanced UI
- Support for Time based (TOTP), Event based (HOTP) and C-R (OCRA) tokens
- Security enhancements for Time and Event-based tokens
- Default token name is taken from the user name as configured in SAS
- Support for FIPS 140-2 Level 1 cryptographic libraries

# Resolved Issues

---

Issue	Synopsis
MPGA-2119	The passcode is now displayed correctly, enabling the user to read the generated passcode and enter it in the required application or Window login field. Previously, the passcode disappeared as soon as the Window or application was opened.
MPGA-2063	When accessing the MobilePASS URL (mobilepass://) the correct screen, showing the generated passcode, is now displayed. Previously, the Create New Token screen opened.

# Compatibility and Upgrade Information

---

## Interoperability

### Operating Systems

SafeNet MobilePASS 8.4.1 for Mac OS X runs on the following operating systems:

- Mac OS X 10.9, 10.10, and 10.11

- Gemalto's SafeNet Authentication Service (SAS) Cloud
- Gemalto's SafeNet Authentication Service (SAS) PCE/SPE 3.4 and later
- Gemalto's SafeNet Authentication Manager (SAM) 8.2 - latest Hotfix
- Gemalto's SafeWord Premier Access (SPA) Solaris 3.2.1.06 and later
- Gemalto's SafeWord Premier Access (SPA) Linux 3.3.1. and later
- Gemalto's SafeNet Authentication Manager Express (SAMx) 8.1 and later

## Prerequisites

### Removing SafeNet MobilePASS 8.4 for Mac OS X, Customer Preview

If you ran SafeNet MobilePASS 8.4 for Mac OS X, Customer Preview, remove it before installing the SafeNet MobilePASS 8.4.1 for Mac OS X general availability (GA) release.

**To remove SafeNet MobilePASS 8.4 for Mac OS X, customer review:**

1. Delete the MobilePASS application as follows:
  - a. Right click the **MobilePASS.app** file and select **Move to Trash**.
  - b. Right click the **Trash** icon and select **Empty Trash**.
2. Delete the container as follows:
  - a. Select **[User]>Library>Containers**
  - b. Right click on **com.safenet.mobilepass.mac** and select **Move To Trash**
  - c. Right click the **Trash** icon and select **Empty Trash**.

**NOTE:** If attempting to empty the trash fails, restart the computer and attempt to empty the trash again.

---

# Product Documentation

---

The following product documentation is associated with this release:

- SafeNet SafeNet MobilePASS 8.4 for Mac OS X User Guide

We have attempted to make these documents complete, accurate, and useful, but we cannot guarantee them to be perfect. When we discover errors or omissions, or they are brought to our attention, we endeavor to correct them in succeeding releases of the product.

## Support Contacts

---

If you encounter a problem while installing, registering, or operating this product, please make sure that you have read the documentation. If you cannot resolve the issue, contact your supplier or Gemalto Customer Support. Gemalto Customer Support operates 24 hours a day, 7 days a week. Your level of access to this service is governed by the support plan arrangements made between Gemalto and your organization. Please consult this support plan for further information about your entitlements, including the hours when telephone support is available to you.
