## Overview

---

The FIPS certification for the IDPrime MD 830/831 and IDCore 30B smart cards will be sunset by August 2021 and will be moved from “Active” to “Historical” status. Although the FIPS certificate for the IDPrime MD 830/831 smart cards will continue to be valid, after August 2021 these smart cards can no longer be used in NEW procurements.

In view of this situation, and in order to ensure continued compliancy, Thales will discontinue the sale of the products listed below

- IDPrime MD 830/830B
- IDPrime MD 831
- IDPrime MD 3810
- IDPrime MD 3811
- IDCore 30B

Thales will transition the products listed above to the replacement products outlined in this document and detailed in the [“Replacement Products”](#) section.

Thales has developed a plan to ensure current customers a smooth transition in upgrading to the latest available Thales technology. If you have questions about this transition that are not addressed in this document, please contact your local account manager for more information.

## RMA

---

RMA & hardware replacements after the Last-Time-Buy (LTB) will be with replacement product. RMAs for products under warranty will be offered only if components are reasonably available. Hardware replacements where deemed appropriate after the Last-Time-Buy (LTB) will be with replacement products. Thales will continue to provide email support to the extent reasonably practicable without providing product releases and quality updates, and Thales provides no guarantee that a problem with the said product can or will be resolved. Thales will not guarantee Failure Analysis (FA) and Corrective Action (CA) reports on these products. Thales will review each unit returned on a case by case basis and determine what type of FA / CA is justified given the age and condition of the product.
